## CAREER OBJECTIVE

As a front-end developer, my objective is to create meaningful web development by constructing influential applications. My aspiration is to collaborate with an agile team where I can acquire knowledge and give immediate solutions.

## SKILLS

---

**Expertise:** HTML | CSS | Bootstrap | Tailwind | JavaScript | ES6 | React js | MongoDB

**Comfortable:** Firebase | Rest API | ExpressJS | jwt

**Familiar:** node js | next js

**Tools:** VS Code | Github | Figma | Netlify | Vercel

## PROJECTS

---

A significant number of quality projects have been produced. Three of them are notable.

**COOKING MASTER – Chef's Website**   April 2023 – May 2023   [Live Site](#) | [Client](#) | [Server](#)

- Cooking Master focuses on providing information about various chefs, their specialties, and detailed profiles.
- Cooking Master also offers access to chef's recipes with appropriate cooking methods for users to learn and replicate.
- The Firebase authentication system has been implemented in this application.

**TECHNOLOGY:** Html, CSS, JavaScript, React js, Node js, and Express js.

**TOY CAR – E-commerce Website**   May 2023 – June 2023   [Live Site](#) | [Client](#) | [Server](#)

- Specifically focusing on toy cars. This type of website allows sellers to add various toy car products and sell them to customers.
- Sellers have the ability to manage their own products, including updating and deleting them as needed.
- The website serves as a platform for buyers and sellers to engage in transactions related to toy cars.

**TECHNOLOGY:** Html, CSS, JavaScript, React js, Node js, Express js, and MongoDB.

## **CAREER BUILD – Job Portal Website**    June 2023 – July 2023

[Live Site](#) | [Client](#)

- In the job portal website companies can post job openings and users can search for and apply to the jobs that interest them.
- The website would have features such as job details, application, filtering options (including remote and onsite jobs), and a section for users to track their applied jobs.
- It's a valuable project that can provide a platform for job seekers to explore job opportunities and for companies to advertise their job openings.

**TECHNOLOGY:** Html, CSS, JavaScript, React js and Tailwind.

## **Training**

---

### **Complete web development course with Jhankar Mahbub**

Programming Hero (January 2023 to July 2023)

## **EDUCATION**

### **Higher Secondary Certificate (HSC)**
